A family child care provider is struggling to find the necessary disinfecting products needed to maintain appropriate sanitization and cleaning practices in her program. This child care provider has responded to the call to remain open during the pandemic and is committed to serving the children of essential workers so that they may continue to serve their communities on the front lines of COVID-19. She relies on these items to keep children in care healthy so that their parents can work and so that she and her family can remain healthy and her program may remain open.

Needs: Bleach (any brand, any size bottle) and Lysol spray

I provide case management services to a young adult with developmental disabilities. Unfortunately, due to no fault of her own, she is experiencing a suspension of her SSI while she works towards identifying a new Representative Payee. She is reapplying for MSA/SNAP benefits, but in the interim, she needs some funds to help meet her needs. The request is for 4- \$ 25 (a total of \$100) gift cards. If the gift cards are split into \$25 increments, this will help her better manage her budget until the MSA/SNAP benefits are approved and the SSI is released.

Newly Housed Single Mom needs Furniture. This single mom recently acquired housing and needs furnishings for her apartment for her and her thirteen year old son. Due to the coronavirus, her Bridging appointment was canceled, and she is unable to go shopping for furniture. They are also on the waitlist for Sleep in Heavenly Peace who said they will not have beds till May. I am looking for people to donate and deliver the above items to her home. At this point she basically has nothing in her home and would appreciate any help! Twin bed, box spring, and mattress; queen bed, box spring, and mattress; two dressers; small dining table and chairs; television stand; couch, love seat, and/or comfy chairs. She would also accept end tables, lamps, air mattresses, etc., but the above items are preferred.

This young adult recently acquired housing with a bed and is in need of bedding and/ or sheeting. Due to the coronavirus, many resources are not available in regards to furniture and housing items. I am looking for people to donate and deliver the above items to his home. At this point a mattress and box spring have been donated but are still needing full sized bedding and sheets. A gift card could be donated as well in order to purchase the bedding and sheets. Thank you!

CAP Food Shelf In Need of Supplies. We are definitely in need of hand sanitizer, toilet paper, diapers and wipes for our families. We are especially in need of hand sanitizer to provide to our volunteer drivers when delivering meals to seniors.

We are also asking for donations of emergency kits for our families in need. These bags would include the following items: Dish soap , Tissues/Kleenex, Toilet Paper, Paper Towels, Other item suggestions: coloring books, puzzle books, puzzles, blank greeting cards/notecards, gift cards for grocery stores or pharmacies

I am working with a single mother and her son. Mom is working as many hours as possible through a temp agency, but hours have been cut due to COVID-19. She is also being asked to move (which will be a positive thing for their family) and is working hard to save money for the move. They are in need of a microwave and because of this her son is only able to eat cold food right now. It doesn't matter if it is new or used, anything that will warm his food will be helpful.

I am working with a family of 6, that is in need of a good vacuum. The family has a vacuum cleaner that no longer works and is not able to pick up things well. The family has two younger children that have special needs who get into things throughout the home more (especially with not being able to go to school). This requires the parents to vacuum and clean more frequently. However with the vacuum not working, the family has not been able to maintain the cleanliness of the home.

A client of mine recently lost her restaurant job and is now working on the front lines in a make-shift homeless shelter for those with COVID-19 or suspected to have COVID-19. She is a single mother of two young girls. She is concerned because she is working in her street clothes everyday, then returning home in those same clothes. She is asking for help to obtain some scrubs for her to wear while at work. This will allow her to change into her street clothes at the end of each shift and avoid bringing the virus home. She is XL in size, and any color is welcome!

A single mother of two children recently moved to Shakopee from another state and is in need of some dressers for their home to help with organization. They currently do not have anything to store their clothing in. The mother works a couple nights of week but due to her sons extensive behavioral needs is not able to work often because she does not have anyone who is able to watch him and deal with his behavioral needs.
